A: Introduction

The school unit provides computers, networks and Internet access to support the educational mission of the schools and to enhance the curriculum and learning opportunities for students. The Board believes that the resources available through the Internet are of significant value in the learning process and preparing students for future success.

At the same time, the unregulated availability of information and communication on the Internet requires that schools establish reasonable controls for lawful, efficient and appropriate use of this technology. This includes the use, permission and protection of RSU 26 in the application of GAPE (Google Apps for Education), social media and compliance with GDPR (General Data Protection Regulation)

Student use of school computers, networks and Internet services is a privilege not a right. Students are required to comply with policy and the accompanying rules. Students in violation may have their computer privileges revoked and may also be subject to further disciplinary and/or legal action.

All school unit computers remain under the control, supervision, and ownership of the school unit. The school unit reserves the right to monitor all student computer and Internet activity. Students have no expectation of privacy in their use of school computers.

While reasonable precautions will be taken to supervise student use of the Internet, the school unit cannot reasonably prevent all inappropriate uses, including access to objectionable materials and communication with persons outside of the school, in violation of Board policies/procedures and school rules. The school unit is not responsible for the accuracy or quality of information that students obtain through the Internet.

Before students in grades 6-12 are allowed to use school computers and Internet services, the student and the student's parent/guardian must sign and return the Computer/Internet Use Acknowledgement annually. The signed acknowledgment will be retained by the school. Devices for grades K-5 will remain within the building and students will review a Computer and Internet User Guidelines document with their homeroom teacher.

RSU 26 Student Acceptable Use Agreement: 2022 – 2023

The Superintendent and Technology Director shall be responsible for overseeing the implementation of policy and the accompanying rules and for advising the Board of the need for any future amendments or revisions to the policy/rules. The Superintendent and Technology Director may develop additional administrative procedures/rules governing the day-to-day management and operations of the school unit's computer system as long as they are consistent with the Board's policy/rules. The Superintendent may delegate specific responsibilities to The Technology Director, building administration and others as they deems appropriate.

In response to the mounting costs associated with out-of-warranty repairs on Maine Learning Technology Initiative (MLTI) devices, the RSU 26 Board of Directors voted to enact a laptop take-home fee for all devices in the MLTI program. This non-refundable fee is not an insurance policy, but rather a contingency fund to cover accidental damage to MLTI devices that is not covered under warranty. Any student wishing to take their assigned MLTI device home during the school year will first need to sign the take home agreement form attached and also pay this fee.

RSU 26 Student Acceptable Use Agreement: 2022 – 2023

The structure of the Take-Home Fee is as follows:

- The Take-Home Fee is \$40 per student.
- If there are multiple participating students in an immediate family, the Take-Home Fee for each additional student above the first is \$20.

Families who find this fee a financial burden can apply for a partial or total fee waiver. Application forms can be picked up at each school's main office.

G: Laptop Negligence:

In the event that the laptop computer or accessory items are lost or damaged as a result of student negligence or failure to follow the laptop guidelines, the Technology Director in conjunction with building administration, holds the discretion for consequences.
